

Many **great efforts** from students, parents, teachers, support staff, administrators, and community members have **powered the development** of the district's **Emotional Wellness Initiative**. It is the **perfect time** to **combine** all of these **amazing endeavors** under one district-wide committee, to be named the ***Emotional Wellness Committee*** in the 2008-09 school year.

We eagerly anticipate a **continued partnership** with you through this **incredible journey**!
